

Submitting In Site-Hype

Step by step guide on how to do submission in the Site-Hype software

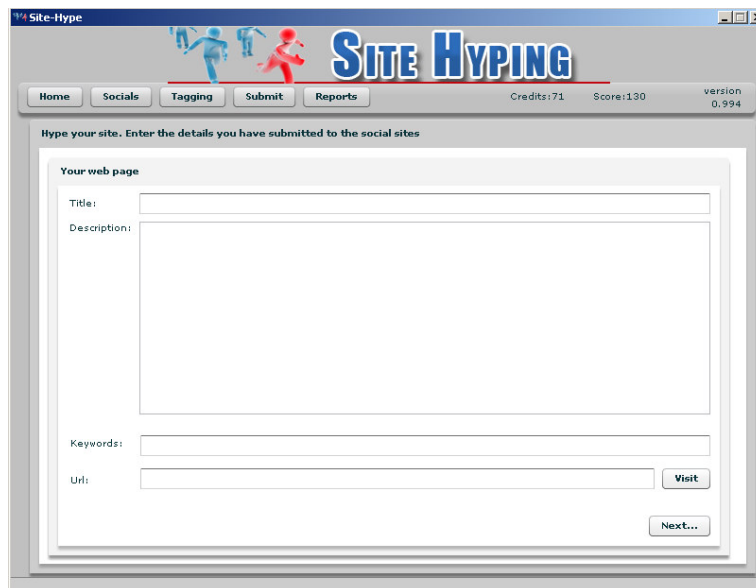

TUTORIAL

2009 www.site-hype.com - Robert Lönn & Fredrik Lönn

Submission

Submission will add your web page with direct links to the social web sites where the page is listed to the site hype software. When your page is listed other users will help you and vote on your submitted pages. As you get votes your credits will decrease, the amount of credits determine how often your page is displayed for other users to vote on.

1. Start the Site-Hype software
2. In the Site-Hype software: Click the **Submit** tab.
3. In the Site-Hype software: **Fill in the title** of the web page to be submitted
4. In the Site-Hype software: **Fill in a description** of the web page to be submitted. At least two sentences.
5. In the Site-Hype software: **Fill in keywords** you want to use for the web page.
6. In the Site-Hype software: **Fill in the direct url** to the web page to be submitted
7. In the Site-Hype software: **Click the visit button** to verify the web page opens in a web browser
8. In the Site-Hype software: **Click the next button**

The screenshot shows the 'Site-Hype' software interface. At the top, there is a navigation bar with buttons for 'Home', 'Socials', 'Tagging', 'Submit', and 'Reports'. To the right of the navigation bar, it displays 'Credits: 71', 'Score: 130', and 'version 0.994'. Below the navigation bar, there is a section titled 'Hype your site. Enter the details you have submitted to the social sites'. This section contains a form with the following fields: 'Title:', 'Description:', 'Keywords:', and 'Url:'. There are also two buttons: 'Visit' and 'Next...'. The 'Submit' button is highlighted in the navigation bar.

For each social site in the site list where status does not read OK

9. In the Site-Hype software: **Click the button for the social site**
 1. The social site should now open up in a web browser on the submit page
10. On the social web page: **Complete the submission** to the social site
11. In the Site-Hype software: **Enter the direct url** to the socials web page for the submitted web page. **IMPORTANT:** the link should be the vote page on the social site and not the web page you submit.
 1. After a while the status field in the list should change to OK
12. Repeat the process from step 9 until all sites have an OK status
13. **Click the “Hype your site”** button and you are done.
